

The Ultimate Folding Screen is built with rugged components designed to withstand the rigors of repeated set ups and tear-downs in demanding applications. A lock and load latch bites down when the viewing surface is attached providing an extremely rigid frame. The resilient latch retention spring is captured and constantly flexed to prevent the screen from dislodging. The latch is designed for ease of operation and maximum life. Couple these advantages with a clear anodized 1.25" x 0.7" wall aluminum tubing, and you've got the precision and stability that allows Draper® to offer the Ultimate Folding Screen in sizes through 16' wide.

The Ultimate Folding Screen is available with Matt White XT1000V for front projection. For rear projection, choose CineFlex CH1200V or CineFlex White XT700V front/rear projection surface. For maximum flexibility, choose multiple surfaces! All surfaces—front and rear—have square corners. Borders are electronically welded using a PVC material that provides straight, clean edges. Ultimate Folding Screen standard viewing surfaces may be interchanged freely with Cinefold surfaces and have 2 3/4" black masking borders.

Standard Legs support the Ultimate Folding Screen in a vertical position. The screen may also be tilted for keystone elimination using the Heavy-Duty Legs which offer extra stability with an adjustable gusset (recommended for sizes larger than 7 1/2' high). For maximum stability, Extra Heavy-Duty Legs are recommended in sizes 10 1/2' high or larger. The Ultimate Folding Screen comes packed in a Draper heavy-duty, molded polyethylene wheeled carrying case.

Shown with Heavy-Duty Legs

Note—Custom sizes are not available.

Freight Class 85 P, Sizes over 200" diagonal Freight Class 85 P+.

Lock & Load latch open

Lock & Load latch closed

Corner Hinge closed

Corner Hinge open

Our Lock & Load latch is designed for ease of operation and maximum life. Lock & Load mortise latches bite down when the surface is attached, making the frame extremely rigid. The most user-friendly and incredibly durable hinge locking mechanism available.
